**The Grants Working Group of the Healthier Congregations Team
is accepting grant applications from Congregations for
TRANSFORMATIONAL PROJECTS**

These grants, up to \$1,500, offer Congregations an opportunity to engage in ministries and innovative projects that share God's love and promote transformation/change.

Which arena of congregational or community life would benefit from positive change?

Is there a new project or program that addresses an unmet need?

What new or risky activity/event do you want to try?

Projects may include:

-  developing spiritual revitalization endeavors or reaching a new audience
-  one-time events or series of activities
-  training congregational leaders to gain new skills, equipping them for ministry
-  developing and implementing mission projects
-  acquiring resources, equipment, staff, educational support to make new or extended impact
-  your unique ideas!

Preference may be given to:

- New applicants
- New projects
- Those who haven't received funds from other Presbytery sources

Mission giving by congregations to the Presbytery makes these grants possible.
